the sudden disappearance of twa flight 800 on the night of july 17 1996 caused an
avalanche of rumors and theories about what might have happened a boeing 747 does
not just disappear in a split second the ntsb s investigation of the crash became the
most thorough most expensive and largest accident investigation in the safety board s
history no stone was left unturned the safety board concluded that the probable cause
of the accident was an explosion of the center wing fuel tank cwt resulting from ignition

of the flammable fuel air mixture in the tank the source of the ignition was most likely an electrical short circuit the safety board in the course of its investigation inspected numerous airplanes to check on electrical wiring what became clear is that wiring is a huge problem in aviation ed block a defense whistleblower tried in the 1980s to draw attention to the problem but was fired instead of awarded the military changed its wire specifications after massive problems on commercial airplanes nothing changed almost six years after the accident he faa has not done much how many more people have to die by wire before serious measures are taken

on july 17 1996 about 2031 eastern daylight time trans world airlines inc twa flight 800 a boeing 747 crashed in the atlantic ocean near east moriches new york twa flight 800 was a scheduled international passenger flight from john f kennedy international airport jfk new york new york to charles de Gaulle international airport paris france all 230 people on board were killed and the airplane was destroyed the weather was good the national transportation safety board determines that the probable cause of the accident was an explosion of the center wing fuel tank resulting from ignition of the flammable fuel air mixture in the tank contributing factors to the accident were the design and certification concept that fuel tank explosions could be prevented solely by precluding all ignition sources and the design and certification of the boeing 747 the safety issues in this report focus on fuel tank flammability
